Search hints:

- If you choose Yes for "Words adjacent," you can type in the phrase *computer programming* and the system will understand that you want only records that have the word *computer* NEXT to the word *programming*. Adjacency is not performed if the set contains more than xxx records.
- Lowercase letters will find matches of capitalized words also. For example, *computer* will find matches for *computer*, *Computer* and *COMPUTER*.
- You may use the Boolean operators AND and OR in your search string. For example, you could type *(heart OR cardiac) AND surgery* to retrieve all records having *heart* or *cardiac* in them, together with the word *surgery*.
- Use the ? character to find matches that contain portions of words. For example, *gun?* will retrieve *gun*, *guns*, *gunners*, *gunnery*, *gunning*, etc. In another example, *?ology* will retrieve *anthropology*, *archaeology*, *psychology*, etc. The ? character may also be used to find variant spellings. For example, *stun?* will find both the American spelling *stunners* and the British spelling *stunners*.
